1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 3 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Suzuki et al (4,588,385). Suzuki et al disclose the claimed structure including a water-cooled vertical engine with a crankshaft 38, a camshaft 58, a timing chain 56, a water jacket 137, a water pump 132, and a thermostat 157 in the upper part of the engine the uppermost part of the thermostat extending above the timing chain (note Figure 3, for example).

3. Claims 1, 2, 4-11, and 13-16 are allowed.

4. Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Applicant's arguments filed March 17, 2005 have been fully considered but they are not persuasive.

Applicant alleges that the temperature sensitive portion of the thermostat of Suzuki et al is not above the timing chain. However, claim 3 does not specify that the temperature sensitive portion of the thermostat be above the timing chain. Note that a portion of the thermostat is above the timing chain, as shown in Figure 3 of Suzuki et al. Only claimed limitations may be relied upon for patentability.

Applicant further alleges that a portion of the thermostat of Suzuki et al is below the timing chain. However, a portion of the thermostat is above the timing chain. Note that the claims do not specify that the entire thermostat is above the timing chain. Only claimed limitation may be relied upon for patentability.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
